According to seller [DLS Automobile](#), this is perhaps the most photographed [classic Porsche 911](#) in history, having been used by Porsche for numerous advertisements, events, promotions and [museum displays](#). Over the years, it's been snapped with a near-complete roster of Porsche luminaries, and remains in an original, unrestored condition. The famous car also has the signature of the 911's legendary creator, Ferdinand Alexander 'Butzi' Porsche, on the underside of the bootlid.
